PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Alexander, Jr. et al.

Group Art Unit: 2153

Serial No.: 10/008,513

Examiner: Krisna Lim

Filed: November 8, 2001

Docket No. 1427/2

Confirmation No.: 5387

For: METHODS AND SYSTEMS FOR EFFICIENTLY DELIVERING DATA TO A PLURALITY OF DESTINATIONS IN A COMPUTER NETWORK

COMMENTS ON STATEMENTS OF REASONS FOR ALLOWANCE

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

REMARKS

On page 2 of the Notice of Allowance dated February 15, 2005, the Examiner's Statement of Reasons for Allowance was as follows:

The prior arts of record do not teach a method and a switch for efficiently delivering data receiving from a plurality of data servers to a plurality of data clients by dividing the data into blocks of a predetermined size, pre-calculating a checksum for each of the block; using the pre-calculated checksums to calculate checksums for data packets to be sent to each client; and forwarding the data to each of the client.

The examiner considers the applicants' claims 1-25 to be allowable based on the claim interpretation and the aforesaid prior arts of record.

Serial No. 10/008,513

Applicants note that while some of the claims recite a switch and delivery of data from a server to clients, all of the claims do not recite these elements. Applicants respectfully submit that the claims that do not recite these elements are allowable for the elements recited therein, rather than based on any elements that are not recited therein.

The Commissioner is hereby authorized to charge any fees associated with the filing of this correspondence to Deposit Account No. 50-0426.

Respectfully submitted,

JENKINS, WILSON & TAYLOR, P.A.
